M&M Manufacturing Company

www.mmmfg.com

M&M's fabricates high-quality rectangular duct and fittings to meet your needs. Rectangular duct is supplied in industry standard 4' and 5' lengths with longitudinal seams typically made with Pittsburgh locks or button-punch snap locks. In addition to TDC™ transverse duct connectors, S & drive slip joints, raw, four-bolt connectors, and applied duct connectors are available. Ductwork can be shipped assembled or knocked down. Based on customer request, M&M duct is fabricated to meet 1995 or 2005 SMACNA's duct construction standards.

M&M's fabricates high-quality spiral pipe and fittings to exacting tolerances. Many popular diameters in 10' lengths are in stock for immediate delivery. Whether you need single wall pipe, double wall pipe, lined or unlined, M&M has the product you need at competitive prices and short turn deliveries. Need open end duct protected for LEED points? Just ask and we can provide all the environmental protection you need for your duct. Don't forget, M&M also makes a complete line of roof curbs and curb adaptors.

M&M has spent the last half century devoted to its customers by providing HVAC sheet metal solutions to make their jobs easier.

Sure, we have high quality products and competitive prices, but its our genuine care for our customers that set us apart from the competition.

At M&M customer satisfaction is understood!
